

Is My Mac Yale-Managed?

Knowing whether or not your device is managed by Yale will determine how you authenticate on Yale's secure network.

To find out:

- Log in to your computer
- Click the Apple icon in the top left corner of the screen
- Click "About this Mac"
- Click "More Info" and find the 'Name.' **If your device name starts with MW or a prefix such as SEAS, MED, FAC, ADM, etc., it is Yale-managed.**

IDENTIFY YOUR DEVICE

Name MWC123DEF

SELF-MANAGED DEVICE

You need to install **SecureW2** to continue connecting to the wired Yale network seamlessly.

Navigate to the [Yale Software Library](#) and search "SecureW2". Click "Add to Cart", then click the cart icon at the top of the screen.

Click 'Checkout', then 'Continue', then 'Download', and choose your operating system (Mac)

Double click the downloaded file to install it. Enter your Net ID & Password when prompted

A pop-up message will indicate a successful connection. If you see "Network not in Range" click "Continue"

YALE-MANAGED DEVICE

If your managed device has internet-only access when ENA Wired launches,

CALL the ITS Help Desk at

203-432-9000 and mention ENA Wired for immediate assistance

Still need help?

Call the ITS Help Desk at 203-432-9000 and **mention ENA Wired** for prompt assistance in identifying or authenticating your device when ENA Wired launches
